

Smartive Mini Server

Manufacturer material declaration

SM-MS-MAT-EN-001 | Issue 1.0 | 2026-06-05 | Final

Manufacturer material declaration

Apptive Kft maintains RoHS conformity documentation for the Smartive Mini Server SM-MS Rev. 1.2.1 final release configuration on the basis of the final BOM, supplier evidence and manufacturer material control.

Item	Final release statement
Electronic BOM	Each LCSC/JLPCB BOM component is covered by supplier RoHS page evidence and/or datasheet evidence in this package.
Raspberry Pi 4B / Pi 5	Official Raspberry Pi EU DoC and RoHS documents are attached as supplier evidence.
PCB / PCBA	The JLPCB RoHS certificate and compliance page snapshot are attached as evidence for PCB and manufacturing materials.
Enclosure	The final enclosure material is UL94 V-0 PLA according to the release specification; the enclosure is included in the product RoHS manufacturer material control.
Packaging	The product packaging contains no identified electrical/electronic homogeneous material restricted under RoHS.

Issue date: 2026-06-05. This declaration forms part of the final technical file for the fixed release configuration.
